OUTWARDBOUNDBALTIMORE.ORG/PRO

You can't get out of your comfort zone from inside the office.

Communication, collaboration, and problem solving skills are at the core of every high-functioning team. No matter your industry, customer, or focus, these components of leadership need to be regularly cultivated and developed with intention. You and your team need to go beyond the PowerPoints and typical boardroom professional development to find a place further outside your comfort zone.

Outward Bound's experiential learning curriculum has decades of high value field-testing with teams just like yours. When we combine our experience with highly-trained facilitators, trusted tools like the Action Learning Cycle, and our unique learning environment (a 20+ element high / low ropes challenge course), we witness real results with teams of all sizes. No matter what challenge you're facing, or area you need to improve—we've seen it.
